

---

With Box's successful IPO last week, there are now 25 public companies in the cloud computing market worth more than \$1 billion, according to Bessemer Venture Partners' Cloud Index.

And the market cap of the top 30 cloud tracked by the BVP Cloud index hit more than \$155 billion last week, too. (The index tracks 41 public companies.)

That's grown by a lot. In 2013, when the index was new, the top 30 companies were worth about \$100 billion and only 15 of them were worth over \$1 billion.

Here's another shocker:

Box CEO Aaron Levie

## No. 25 Hubspot: \$1.08 billion

**Ticker:** HUBS

**Stock price:** ~\$34
