

FOR IMMEDIATE RELEASE

More than 180 Life Sciences Companies Adopt Veeva Vault Quality Applications to Modernize Quality Processes

Leading innovators are streamlining quality management across their organizations and with external partners

BARCELONA, Spain — 12 September 2018 — Modernizing quality management is becoming a top priority among leading life sciences companies. With this shift underway, an increasing number of organizations are unifying quality processes with [Veeva Vault Quality](#) applications from [Veeva Systems](#) (NYSE:VEEV). The number of Vault Quality customers has increased to more than 180, including 10 of the top 20 largest global pharmaceutical companies implementing [Veeva Vault QualityDocs](#) in at least one division. Also, the number of [Veeva Vault QMS](#) customers has nearly doubled since last year, with 58 life sciences organizations using the application to manage quality processes.

“Collaboration and access among global stakeholders are critical to compliance and driving operational alignment,” said Maria Conklin, associate director, quality control, at [Karyopharm Therapeutics](#). “Veeva Vault Quality gives us unified applications to manage quality documents and processes across our organization and with partners on one cloud platform, making collaboration much more efficient and secure.”

Vault Quality applications help streamline business processes and content across global sites, suppliers, contract manufacturers, and other partners to speed workflows for greater efficiency. [Vault QMS](#), [Vault QualityDocs](#), and [Vault Training](#) are part of the [Vault Quality Suite](#), bringing together quality processes, document control, and training on a single cloud platform.

“There is a significant opportunity for companies to modernize quality management and give internal and external teams greater visibility and transparency,” said Mike Jovanis, vice president of Vault Quality at Veeva. “With a cloud-based solution, organizations can more closely align with partners to operate effectively and meet compliance regulations with ease.”

Customers can also bring together Vault Quality suite with applications for clinical and regulatory as part of [Veeva Development Cloud](#), a unified suite of applications that helps organizations drive end-to-end business processes across research and development and manufacturing.

In other news, Veeva announced that more medical devices and diagnostics companies are adopting [Veeva Vault](#) to streamline processes throughout the product lifecycle. Read today's [press release](#) to learn more.
