

FOR IMMEDIATE RELEASE

Veeva Announces Alliances for Digital Field Engagement

*Veeva to design digital strategies and implementation roadmap
to help field teams better connect with HCPs*

*Veeva establishes alliances with Accenture, Deloitte, and other partners
to enable industrywide digital transformation initiatives and get customers up and running fast*

BARCELONA, Spain — 7 Apr, 2020 — Veeva Systems (NYSE:VEEV) today announced industry alliances to accelerate the industrywide shift toward digital engagement. Together with Accenture, Deloitte, and other alliance partners, Veeva is helping life sciences companies design and implement new digital engagement strategies. The Digital Field Engagement offering will help the industry leverage digital channels such as remote meetings, virtual events, and email as the primary way for field reps to connect with healthcare professionals (HCPs).

“We are coming together to help life sciences accelerate its digital transformation through a combination of strategic services, modern cloud applications, and rapid implementation support,” said Dan Rizzo, vice president of global business consulting at Veeva. “Biopharmaceutical companies will be able to quickly shift their customer engagement strategies to digital as in-person access declines.”

Veeva’s Digital Field Engagement solution provides a roadmap for customers to connect with HCPs using digital channels. In the four-week engagement, Veeva defines the roles, responsibilities, tools, data, and training needed for digital engagement. Customers get best practices for remote engagement and remote sampling using [Veeva CRM Engage Meeting](#) and sending compliant content with [Veeva CRM Approved Email](#), as well as a complete roadmap for the processes and technologies to implement.

Accenture, Deloitte, and other partners will support the execution of the digital engagement strategy. Together, Veeva and its ecosystem of partners are helping life sciences customers implement business process change and get up and running fast.
