Our Vision Statement

"Simplify Regulatory Compliance for the Life sciences industry."

Our Mission is to address challenges prevalent in the industry. As part of our mission statement, our top priorities are:

- Deliver cost effective compliance solutions in an industry overwhelmed by rising compliance costs, complexity, and unpredictable change in regulations.
- Provide end-to-end solutions that unifies key stakeholders across businesses, partners, and vendors.
- Get technology and quality to flow in tandem while delivering specialized skillsets.
- Simplify complex regulatory and compliance processes during Mergers and Acquisitions Value Proposition

Our value proposition strikes the perfect balance between technology expertise and exceptional customer experience.

You gain from:

- Our team of world-class technology professionals with decades of proven experience with Life Sciences Industry.
- Competitively priced Life Sciences solutions.
- Holistic understanding of implementing and adhering to industry-standard compliance protocols.
- Our strong partnership with industry leaders.
- Our continued zeal and drive for excellence at everything we do.

Why Choose Us?

Jeev Life Works is an experienced service provider for Safety, Regulatory compliance solutions for the Life Sciences industry. Our philosophy encompasses the key tenets of technology, quality, and innovation while embracing diversity and teamwork.

Here are a few top reasons why you should engage us for your next project!

1. **Exceptional Technological Expertise.**
   We possess a wide range of technology expertise spread over several years within the Life sciences industry. Our core strengths are migration and integration services, consulting, data security and more.

2. **End-to-end systems build and maintenance.**
   We have the skillset to architect, build, and maintain Life Sciences systems across platforms. The systems we design are cutting-edge and cost effective while providing a mature approach to regulatory compliance practices in the industry.

3. **Collaborative Approach to Projects.**
   We believe in the power of teamwork and collaboration to scale greater heights. Our team works closely with you to deliver world-class solutions that help your business grow and thrive. Our teams constantly raise the bar by being flexible and adaptive to challenging new situations.

4. **Competitive and Flexible Pricing.**
   Our aim is to deliver outstanding products and services at a competitive price which is hard to beat in the market. You can choose from several pricing tiers based on your organizational requirements and budget.

5. **Open Culture and Committed Leadership**
   Our company believes in an open culture that fosters trust and aligns us with our client's vision and values. Our company culture maintains a strong focus towards innovation and operational excellence.

6. **Talented Workforce**
   We adhere to the highest industry standards in coding, security and best practices. Our staff comes with years of proven experience in the software and Life Sciences industry.

7. **Respected Global Partnerships**
   We have partnered with global leader Veeva Systems Inc. to deliver outstanding Life Sciences solutions that meet the highest standards in the industry. Our team works closely with them to bring you the latest updates and practices.

8. **Best Industry Tools and Practices**
   We use the best software and analysis tools to deliver high-quality projects. Our approach to any new project is innovative and adheres to industry best practices. We ensure that any services or integrations we provide are smooth and work seamlessly within your ecosystem.

Our Product based Services:

JSuite

JSuite is a Proprietary Solution with set of accelerators built by Jeev Lifeworks. It is a pre-validated cloud platform and provides transparency to the customer on the quality and the progress. JSuite tool has been technically certified by Veeva for Veeva Vault Safety migrations.
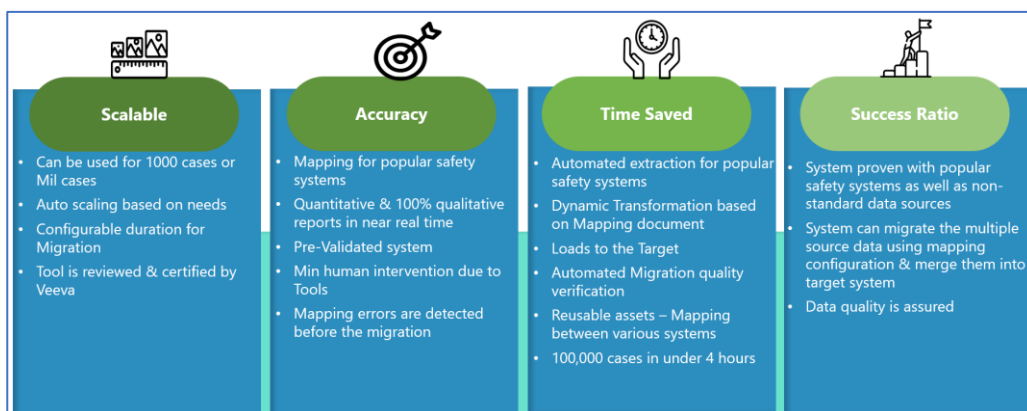

1. Data Migration

Jeev Lifeworks has disrupted the migration process with its state-of-the-art fully automated ETLV migration platform, JSuite. JSuite with its accelerators help crunch the project duration, build quality and confidence right from the first dry run.
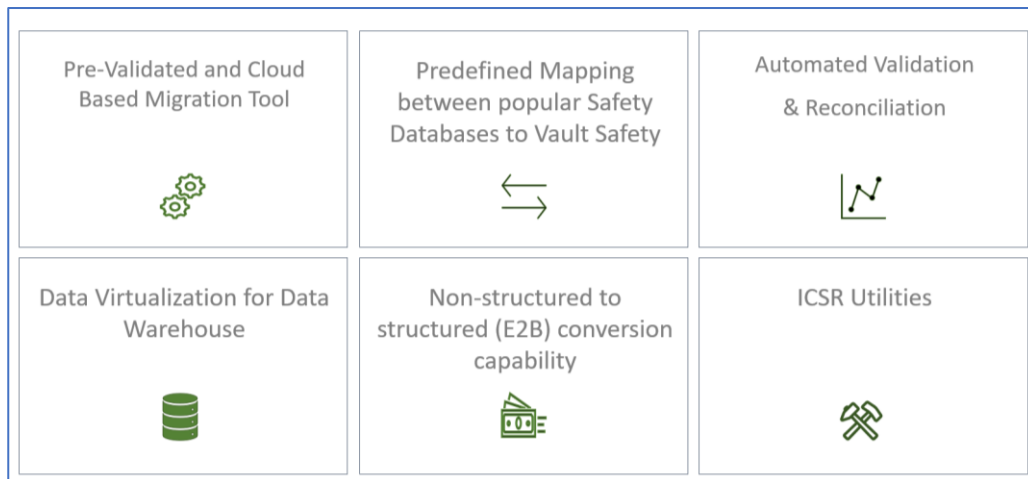

Why Jeev for Migration?

People
- Domain, Compliance & Technical expertise
- Certified Professionals

Veeva Partnership
- Preferred Services Partner - Development Cloud
- Migration Services Partner
- Over dozen Vault Migrations

Experience
- Migration of over 10 mil cases
- Enterprise & SMB Scales
- Popular Safety Systems
- Highest number of Migrations

Capabilities
- Migrations
- Validation
- Reporting
- Business Consulting
- System Integration

Certified
- Audited by top 5 Pharma company
- ISO 9001 & 27001
- GAMP Compliant

- ARISg / Argus / Safety Easy / PcV Manager / PV24 / Trackwise, E2B R2 & R3, CSV, Excel
- Veeva Vault Migrations

Our Strengths

Scalable
- Can be used for 1000 cases or Mil cases
- Auto scaling based on needs
- Configurable duration for Migration
- Tool is reviewed & certified by Veeva

Accuracy
- Mapping for popular safety systems
- Quantitative & 100% qualitative reports in near real time
- Pre-Validated system
- Min human intervention due to Tools
- Mapping errors are detected before the migration

Time Saved
- Automated extraction for popular safety systems
- Dynamic Transformation based on Mapping document
- Loads to the Target
- Automated Migration quality verification
- Reusable assets – Mapping between various systems
- 100,000 cases in under 4 hours

Success Ratio
- System proven with popular safety systems as well as non-standard data sources
- System can migrate the multiple source data using mapping configuration & merge them into target system
- Data quality is assured

Migration Accelerators that will save time & cost.

Pre-Validated and Cloud Based Migration Tool	Predefined Mapping between popular Safety Databases to Vault Safety	Automated Validation & Reconciliation
Data Virtualization for Data Warehouse	Non-structured to structured (E2B) conversion capability	ICSR Utilities

JSuite supports migration between multiple different source and target systems.

Database to Database	Excel/CSV to Vault Migration	XML based Migration
Database to Vault Migration	Vault to Vault	Vault to Database
	Document Migration	
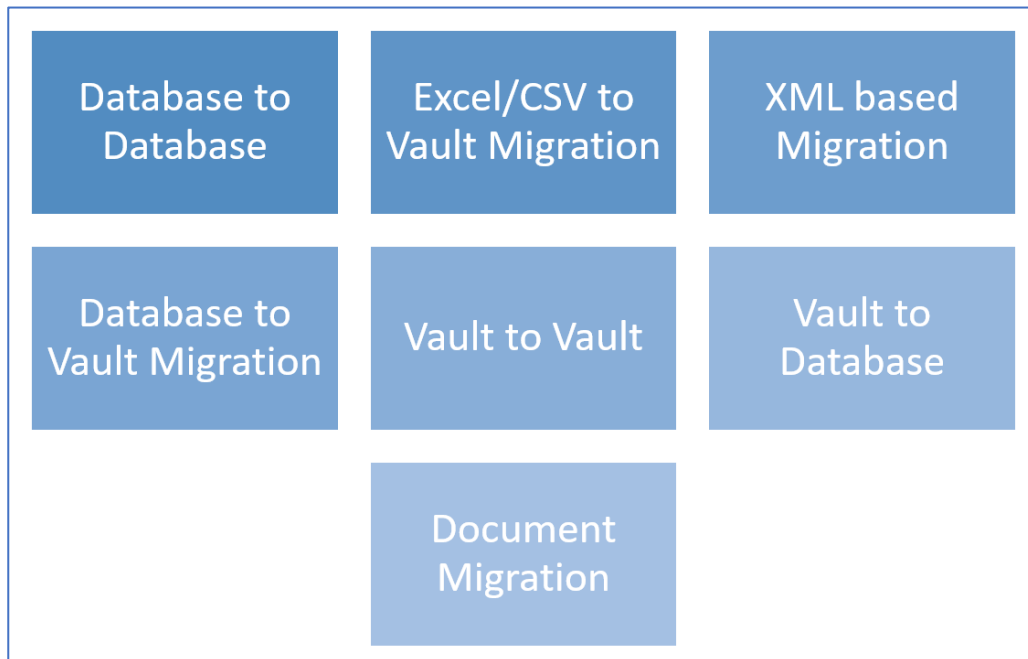

2. Vault Data Hub Support

- A Vault Safety Complementary Extension Solution.
- Single ETL interface for Vault used for multiple integration needs.
- Enhances the End-user experience with complemented capabilities to Vault Safety.
- Best blend of abilities of Vault Safety and Popular Visualization Tools.
- A SaaS offering that dovetail Vault Safety releases.

3. Validation Services

JSuite supports fully automated Validation Services for Veeva Vault Safety. The JTest module is an Automation Platform exclusively developed for Veeva Vault. It allows customers who does not have any coding or automation experience to define the Test Scenario in business terms.

JTest provides the test results for each run in a user-friendly manner and uploads results into Veeva Document Binder space. This comes handy for customers for each new Veeva releases.
