

Veeva expertise across your entire CRM journey

From Veeva CRM-to-Vault CRM migration support and integrations to custom development and ongoing managed services.

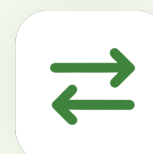

01

Veeva Managed Services

Ongoing support tailored to your needs, covering maintenance, issue resolution, user and access management, administration, training and adoption across Veeva CRM and Vault.

02

Vault CRM Migration Support

End-to-end support across the migration journey, from preparation and testing to go live, with dedicated tools and expertise designed to accelerate key migration activities.

03

Veeva Integrations

Specialist support for integration migration from Veeva CRM to Vault CRM, including redesign, transition and testing, backed by dedicated tools and expertise.

04

Vault Custom Development

Custom development for the Vault Platform, including Java SDK-based solutions and tailored extensions supporting specific business and migration requirements.

05

Commercial Operations

Operational Veeva support across key commercial processes, including PromoMats administration, Territory Management and MCCP activities.

06

Right-sized Veeva Partner

Veeva and life sciences expertise, best practices and delivery capacity, combined with the flexibility, direct access and hands-on support of a focused partner.
