

Veeva Vault Station Manager

Always have the right content, on the right station

Greater demands on manufacturing are accelerating digitalization. With more complex supply chains and a shift towards multi-product manufacturing facilities, companies are transforming operations to enable agility. Digitalizing content and processes allows better support of new business requirements and engages operators—boosting compliance.

Veeva Vault Station Manager is a modern, easy to use mobile application for the shop floor. It helps ensure the right content is always available for greater compliance and efficiency.

Key Business Benefits

- **Always up-to-date:** Ensure stations on the manufacturing floor always have current content
- **Instant information access:** Enable operators to quickly find and access the right information—boosting compliance
- **Reduce risk:** Centrally manage and track quality content on each station and device
- **Single source of truth:** Seamlessly manage content in Vault QualityDocs and deliver it onto mobile tablets with Vault Station Manager

Mobile Application

Designed for the manufacturing shop floor, operators can use tablet devices to access content from anywhere.

Modern Interface

With an intuitive user experience, operators can quickly find and access documents and work instructions they need with a couple of taps.

Automatic Content Synchronization

Automatically synchronize content at each station and device with new approved versions.

Offline Access

Local content copies ensure continuous access to information when offline or in the event of an internet outage.

Station and Device Specific Content

Centrally manage content and automatically or manually digitally deliver it to each station and approved tablet.

Robust Audit Trails

Detailed audit trails capture information including every document and version in use on each device.

Content Formats

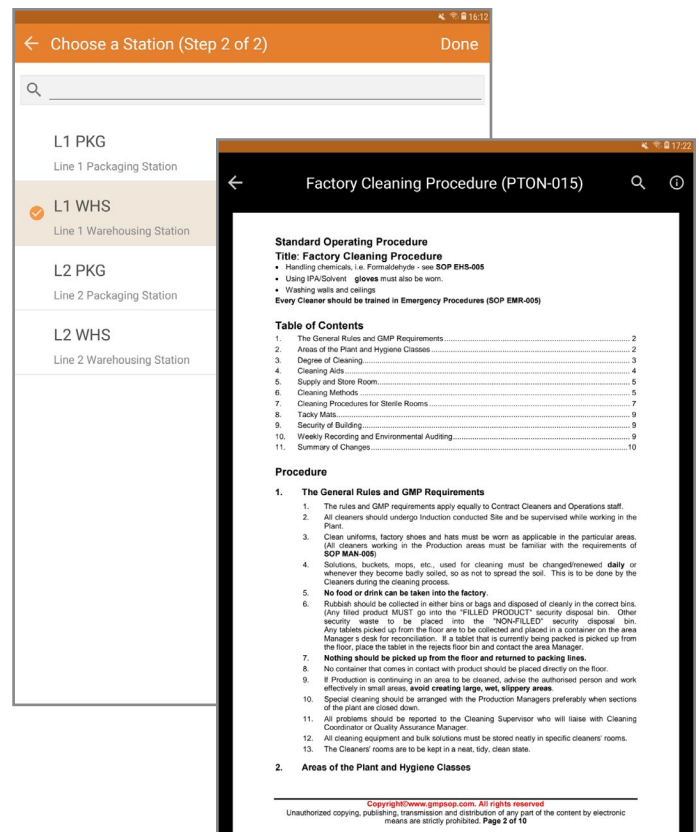

Support for documents and videos, share content such as work instructions using the ideal format.

Reports and Dashboards

Leverage reports and dashboards to see and track content and versions in use at each facility, station, or device.

Single Source of Truth for Quality Content

Vault Station Manager seamlessly works with Vault QualityDocs to ensure all users and devices have access to a single source of truth for quality content.

V Vault Quality Suite

Veeva Vault Quality is a suite of applications that enables the management of quality events and content throughout its lifecycle on a single cloud-based platform. Connecting quality processes, critical content, and training with Vault QMS, Vault QualityDocs, Vault Station Manager, and Vault Training, accelerates and streamlines event identification, correction, and change management. With end-to-end visibility, organizations are equipped to respond to quality events faster and provide a complete picture of quality management activities to regulators.
