# How to Join a Veeva CRM Engage Meeting from Windows
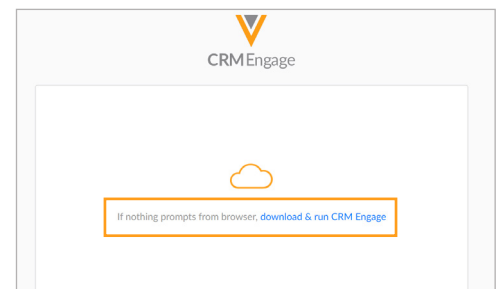

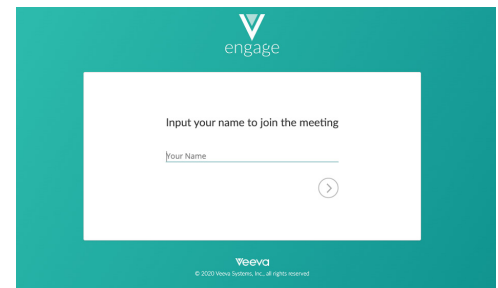

Viewing an Engage Meeting Invitation Email

• From your email inbox, open the Engage Meeting invitation.

• Click the meeting link.

Joining Engage Meeting via a Browser

• When joining from your desktop for the first time, Engage Meeting will attempt to launch from your default browser. Supported browsers include Chrome, Edge, Firefox, Safari, and Internet Explorer 10+.

• If you are using a supported browser, you will be prompted to "Input your name to join the meeting."

• If you are NOT using a supported browser, you will be prompted to join via a supported browser.

• Click "Run" and install the application.

Joining an Engage Meeting (already installed)

• Once installed, you will be taken to the login screen.

• Enter your name.

• Select options for enabling your microphone and video.

• Click "Join Now" to enter the Engage Meeting.

Note: Clicking on the Meeting URL will bring you into your meeting. If you manually enter your meeting ID, you may be prompted for a password.
