

Veeva Vault

Regulated Content and Data Management in the Cloud

Always Current, Constantly Innovating

Veeva Vault is a cloud-based content management platform and suite of applications that provides life sciences companies a single source of truth to reduce complexity and increase business agility. Veeva Vault not only manages regulated documents, but also tracks critical information from product development to commercialization. Managing this unique combination of documents and data, organizations improve efficiency and gain deeper insight.

Access

Connecting all parties globally promotes and streamlines collaboration. Quickly provide secure access to internal and external users—incorporating all stakeholders into key processes and enabling greater visibility, and control.

Visibility

In any regulated environment, it is critical to know what content exists, what state it is in, and where it is used. Vault's real-time reporting and dashboards empower managers with information for faster decision-making to help identify and remedy process bottlenecks, track progress, and gain visibility into readiness.

Control

Veeva Vault simplifies compliance by providing the functionality you need with unparalleled ease-of-use. Easily gain control over document and data processes with capabilities such as versioning, e-signatures, and controlled workflows. Vault also automates manual steps and keeps collaborators on-task to improve efficiency.

V Vault Platform

Veeva Vault is the first cloud platform built from the ground up to meet the rigorous content management requirements of the life sciences industry. With a modern user experience and uniquely designed for both content and data on a single platform, organizations can seamlessly manage end-to-end processes.

The Vault Platform leverages the latest in cloud technology and is delivered and accessed through the web for greater ease-of-use. Hosted at SOC I Type II and ISO 27001 certified global data centers, every release is IQ and OQ qualified reducing the validation efforts.

Vault Clinical Data Management

Accelerate study timelines with modern, innovative applications for clinical data.

Vault Clinical Data Management Suite (Vault CDMS) is redefining data management to help clinical teams manage today's trials with agility and speed.

Vault EDC

Collect, clean, and review study data.

Veeva CDB

Manage complete and concurrent study data.

Vault Coder

Rapid coding for clinical terms.

Vault Clinical Operations

The only suite of unified clinical operations applications on a single cloud platform.

The industry's first and only suite of unified clinical operations applications—including study start-up, eTMF, CTMS, payments, and site connect on a single cloud platform—to accelerate trial execution, and deliver real-time visibility.

Vault Study Startup

Accelerate time to site activation.

Vault CTMS

Enable proactive trial management.

Vault eTMF

Enable active eTMF for real-time inspection readiness.

Vault Payments

Pay clinical research sites faster.

Vault Site Connect

Automate information sharing in clinical trials.

Vault Quality

Modernize quality management while driving compliance and operational innovation.

Seamlessly manage your quality processes and content with the Vault Quality suite of applications. All parties have access to a single authoritative source, enabling greater visibility and control.

Vault QMS

Easily manage all quality processes.

Vault Product Surveillance

Simplify postmarket surveillance for medical devices.

Vault QualityDocs

Document control for all GxP documents.

Vault Station Manager

Deliver the right content to the shop floor.

Vault Training

Ensure compliance and role-based qualification.

Vault RIM

Bring speed and agility to your regulatory team with unified RIM.

Manage the planning, execution, and oversight of all regulatory activities within a single, unified RIM platform.

Vault Registrations

Manage product registrations globally.

Vault Submissions

Speed submission development.

Vault Submissions Publishing

Automate publishing during submission development.

Vault Submissions Archive

Archive published dossiers securely in the cloud.

Vault Safety

Veeva Vault Safety is the only modern application for the collection, management, and real-time oversight of adverse events.

Vault Safety

Real time management and oversight for adverse events.

Vault SafetyDocs

Centrally manage pharmacovigilance content.

Vault Safety.AI

Automating case intake for efficiency and scalability.

Vault Signal

Manage signals from detection through risk evaluation and mitigation.
